DEDICATION

This book is dedicated to my late parents Mallam Ibrahim Yarima and Mallama Maryam Ibrahim, to my family and to the entire students of secondary, technical and tertiary institutions

PREFACE

This book is aimed at simplifying wall, floor and ceiling finishes for students of Building technology in technical colleges in particular and others in tertiary institutions in general. The book covers all topics in wall, floor and ceiling finishes for technical college students and university students. It will also be useful to students offering building technology in polytechnic.

At this juncture, I would like to acknowledge the contribution of Engr. Dr. P. A. Omozokpia of Federal University of Technology Minna, who despite his tight schedule found time to go through the manuscript and effected the necessary corrections.

I would like also to express my appreciation to my beloved wife and children, Mallama Amina Dauda Usman, Muhammad Dauda Ibrahim, Aisha Dauda Ibrahim, Ibrahim Dauda Ibrahim, Hafiza Dauda Ibrahim, and Hamida Dauda Ibrahim for their spiritual and financial support towards this project.

Finally, I also wish to appreciate all my colleagues in Building Technology Education Department, Federal University of Technology, Minna.

Ibrahim Dauda

2018

ACKNOWLEDGEMENTS

“Introduction to Wall, Floor and Ceiling Finishes” is largely a by-product of many years of teaching and practical experience. In the process of compilation of this book, contributions have come from various individuals and institutions which cannot all be remembered. However, I am particularly grateful to the National Board for Technical Education (NBTE) Kaduna for using their revised National Technical Certificate (NTC) curriculum for Building Technology programme as a guide.

I am highly indebted to various authors and professional institutions such as the Nigerian Institute of Building (NIOB). I am also grateful to Professor Abdullahi Shehu Ma'aji who was very helpful in the production of this manuscript. My most profound gratitude goes to Dr. Hakimi D. of Math Department, Federal University of Technology, Minna for his immense contribution to the success of this book. Finally, I acknowledge Engr. Dr. P. A. Omzokpia who was very instrumental in the publishing of the book.

FOREWORD

Building finishes as a discipline is driven by a number of motivating influences. Among these are the demand made by the areas to which it is applied. The text introduction to Wall, Floor and Ceiling finishes in Building construction provide motivation for the understanding of the contents of Building finishes.

The book is well written and has many worked examples with all the details necessary for a good understanding of the topic is provided. I believe that the book will be useful to Builders, Students and Teachers/Lecturers of Building technology and therefore recommend it to them.

Engr. Dr. P. A. Omozokpia

Minna, Nigeria

CONTENTS

Dedication.....	iii
Preface.....	iv
Acknowledgements.....	v
Foreword.....	vi
Contents.....	vii
CHAPTER ONE.....	13
1.0 TOOLS AND EQUIPMENT.....	13
1.1 Finishing tools.....	13
1.1.2 Common finishing tools.....	13
1.1.3 Functions of finishing tools.....	14
1.1.4 Care and maintenance of finishing tools.....	18
1.2 Finishing equipment.....	19
1.2.1 Common finishing equipment.....	19
1.2.2 Functions of finishing equipment.....	19
1.2.3 Care and maintenance of equipments.....	20
1.3 Revision Questions.....	20

3.1.5	Quantity of tiles unit required for a specified floor area from working drawing	38
3.1.6	Causes and precaution against defect in PVC tiling	41
3.1.7	Revision Questions	42

CHAPTER FOUR..... 43

4.0	EXTERNAL AND INTERNAL RENDERING.....	43
4.1	Rendering and Internal rendering (plastering)	43
4.1.1	Functions of external and internal rendering	43
4.1.2	Functional difference between external and internal rendering	44
4.1.3	Quality of a Good Plaster	44
4.1.4	Types of Plaster.....	44
4.1.5	Methods of application	45
4.1.6	Types of plaster finish to wall surface.....	45
4.1.7	Procedure for external and internal rendering	47
4.1.8	Common problems with external and internal rendering.....	47
4.2.0	Materials for rendering/plastering	49
4.2.1	Preparation of wall surface for plastering/rendering.....	50
4.3	Revision questions.....	51

CHAPTER FIVE

5.0 PRINCIPLES AND TECHNIQUES OF FIXING VARIOUS WALLS AND CEILING TILES

5.1	Cement mortar	57
5.2	Adhesive	58
5.3	Estimation of tiles for work area	59
5.4	Revision Questions	59

CHAPTER SIX

6.0	CLADDING	60
6.1	Important points for the Cladding Designer	60
6.2	Important point for the cladding fixer	60
6.3	C ramps and other fixing materials	60
6.4	Support to cladding materials	61
6.5	Common cladding materials	61
6.6	C compression joints	61
6.7	Operational and safety precautions for fixing cladding	61
6.8	Mortar for fixing stone, concrete and granite cladding	70
6.9	Protection of cladding after fixing	70
6.10	Methods of storing and handling claddings	71
6.11	Revision Questions	71

CHAPTER SEVEN.....	58
7.0 PREMIXED RENDERING (TYROLEAN).....	73
7.1 Tyrolean finish.....	73
7.1.1 Methods and procedure for applying Tyrolean.....	74
7.1.2 Causes of failure in Tyrolean finish.....	75
7.1.3 Estimate of quantity of Tyrolean finish required in a given situation.....	75
7.2 Paint.....	77
7.2.1 Types of paints.....	77
7.2.2 Painting tools.....	78
7.2.3 Composition of paint.....	79
7.2.4 Painting Process.....	80
7.2.5 Common causes of defects and remedy in painting.....	81
7.2.6 Reasons for painting walls and timber surfaces.....	83
7.2.7 Preparation of wall surface for painting.....	83
7.2.8 Revision question.....	83
CHAPTER EIGHT.....	85
8.0 WALLPAPERS.....	85
8.1 Types of Wallpaper.....	86
8.2 Selecting Materials for Wallpaper.....	91
8.3 Tools for installing Wallpaper.....	92
8.4 Procedures for applying or installing wallpaper.....	93

8.5	How to install vinyl wallpaper	101
8.6	Pre-pasted wallpaper	104
8.7	Preparing the Walls	107
8.8	Installing Wallpaper	108
8.9.	Revision Questions.....	111
CHAPTER NINE.....		
9.0	CEILING FINISHS.....	112
9.1	Types of ceiling finishes.....	113
9.2	Quantities of ceiling board required for a given area ...	113
9.3	Plaster of Paris (POP)	115
9.4	Basic steps in getting pop ceiling cast-on-site	115
9.5	Installation of POP	117
9.6	Benefits of POP ceiling	118
9.7	Revision questions.....	119

ABOUT THE AUTHOR

Bldr. Dr. IBRAHIM, Dauda is a Lecturer at the Federal University of Technology, Minna. He is currently teaching in the Department of Industrial and Technology Education (Building Technology Option). He has an outstanding career as an educator in

Building Technology programme. He is particularly interested in helping young people towards careers in Building Technology and Industrial and Technology Education. He holds a Nigeria Certificate in Education (NCE Tech) Building Technology. He also holds a B Tech in Industrial and Technology Education (Building Technology) from Ahmadu Bello University Zaria and a Master Degree and a PhD degree in Building Technology from Federal University of Technology, Minna. He is a member of Nigerian Institute of Building (NIOB), National Association of Teachers of Technology (NATT) and Teachers Registration Council of Nigeria (TRCN). The author used his five years of teaching experience with Federal Science and Technical College Shiroro-Kuta and his thirteen years of lecturing with Federal University of Technology Minna, to complete this book using the curriculum drafted by the National Board for Technical Education (NBTE), Kaduna. The author is married to a beautiful wife and blessed with five children.
